

PRECISION SCREEN MANUFACTURING

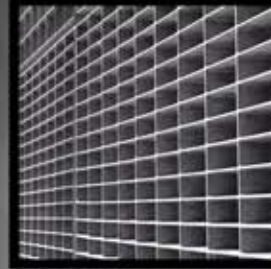

**Quality Screen Manufacturing
with Over 50 Years of Experience!**

Safety Grating

Welded Mesh

Bar Grating

Hardware Cloth

We are strategically located in San Antonio, TX and Tulsa, OK providing quick, reliable response times to cover the Gulf Coast region and entire USA. We have over 120,000 square feet of space that handles all of our manufacturing, fabrication, machining capabilities.

Our weaving capabilities are one of the largest in North America. We can offer the largest range of custom mesh specifications in all alloys such as Plain Steel, Galv, 304L/316L, 317, 321, 310, 330, 347, Monel, Inconel, and most exotic alloys for the refining/petrochem industry.

We offer fast lead times at a competitive price and are available 24/7 for your emergency requirements. In addition to handling screen requirements we can also supply any perforated metal, expanded metal, bar grating, and tie wire requirements.

Our experienced staff has over 50 years experience in the industry. We cater to the petrochemical/refining, construction, agricultural, steel fabrication, construction, water treatment, and architectural industries. Our primary focus is customer service and finding a fast, dependable solution to your requirement.

We look forward to Serving You!

Tie Wire

Perforated Metal

Expanded Metal

Woven Wire Mesh

Refining/Petro-Chem

We can handle Reactor Internals such as Reactor Screens, Catalyst Support Beds, Profile V-Wire/Wedge wire screens, Support Grids, Hold Down Grids, Scallops, Baskets, Strainers, Perforated Plate, Expanded Metal, Tie Wire, etc. We can supply reactor internals for Sulphur Reactors, Alki Units, Claus Reactors, Chloride Treaters, Dehydrators, and other types of Vessel and Reactor Internals. We can also supply any exterior grating such as stair treads, catwalks, platforms, ladders, ladder rungs, etc in most all alloys such as 304SS, 316SS, Carbon Steel, Galvanized, Aluminum, and Fiberglass. Please contact one of our experienced sales staff to help find a solution to your requirement.

We are available 24/7 for emergency turnaround requirements

Architectural

The Architectural Industry has included the use of our product in many creative and useful ways to accomplish both structure and design.

Industrial

We serve and supply most industrial applications. We manufacture screens to serve the food and beverage industry, heat treating industry, water screens and debris screens for industrial plants, pulp and paper plants, aerospace, sand and gravel, etc. We supply wire mesh, perforated plate, tubular slit mesh, and expanded metal for the filtration industry and industrial needs. PSM offers complete service for the air exchanger industry such as fan guarding, hail guards, as well as bug screens.
